Commissioner for Patents

Newly submitted claims 31-42 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

The new claims are directed to different a subcombination disclosed as usable together in a single combination. The subcombination is distinct since it does not overlap in scope and is not an obvious variant, and it would have a separate utility. Specifically, the segmented radius as now claimed would have separate utility in that it could be used without the surface having a radius of curvature as previously claimed. See MPEP § 806.05(d).

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Therefore, the amendment filed on 5/1/07 canceling all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-responsive (See 37 CFR 1.142(b) and MPEP § 821.03).

Since the above-mentioned amendment appears to be a bona fide attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Flemming Saether whose telephone number is 571-272-7071. The examiner can normally be reached on Monday through Friday. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Judy Swann can be reached on 571-272-7075. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
